

Agape Service Project Promotion for Participant Registration – Information

We hope these posters, bulletin flyers, and social media graphics will come in handy as you promote this service opportunity at your parish and recruit youth and adult participants.

Documents are saved as JPG and/or PDF. If you would like a different format, email Kelsey (kelsey.harrington@seattlearch.org).

Add your own information:

- On the social media posts, you could simply put your group's information (dates, whom to contact, more info, etc.) in the caption of the photo.
- With the bulletin and poster, you could edit it on photo editing software or publisher before printing.
- All documents were created on Canva. If you have an account, we are happy to share the document with you, so you could add your group's information on the original document.

Hope these help!
